

# Join us for our Game Breeder and Overwintering Workshop

Venue: Angel Inn, Topcliffe

Time: 18:30 (19:00 start) – 21:00

Date: Tuesday 29<sup>th</sup> November 2022

As we approach the 2022/2023 season, AI (Avian Influenza) remains a threat to our sector. UK cases have already begun to increase month on month, coupled with sustained problems with the supply of eggs into the UK from France, our challenges look set to continue. As an industry we need be able to support you, our customers, ensuring that you have everything you need to produce high performing birds and quality eggs for the seasons ahead.

We believe that bringing our sector together to discuss these challenges and offer support and guidance will ensure that you are able to efficiently produce the finest quality stock following best industry practices.

To achieve this, we are hosting a workshop evening offering a series of presentations/talks from key organisations across our industry. This will be followed by an informal workshop session (with hot food!) where you will have the opportunity to ask any questions and discuss your individual concerns with the industry experts.

I do hope that you will be able to join us for our Game Breeder and Overwintering Workshop. If you have any questions, please don't hesitate to get in touch.

We look forward to seeing you there!

Thanks

Murray Brown (Sportsman Game Feeds), Dan King (Sandhill Game Vets) & Jeremy Marsh (Elanco)

*Please let us know your coming on the registration page below!*
