Game Bird, Poultry and Pigeon care

RICHARD T. BYAS B.Vet. Med., M.R.C.V.S.

## MAINTAINING EGG SHELL QUALITY

MARCH 2013

The breeding season for game birds is limited and commercial success depends on the eggs produce being of good quality. One factor that affects the hatch rate is egg shell quality and this often declines as the season progresses. This season we will stock Intra Calferol ® and advise its use to reduce this problem.

### Office Opening Times:

Monday-Friday  
8.30am - 5.00pm

Saturday  
9.00am - 12.00noon

All other times by appointment  
only

**14 Long Street  
Topcliffe  
Thirsk  
North Yorkshire  
YO7 3RW**

**Tel:**

## Intra Calferol

High bioavailability of calcium by supplying it as gluconate  
Excellent vitamin D3 stability at neutral pH  
Improves bone strength  
Improves quality of egg shell  
Water-soluble, does not foul the drinking water system
